

Axcess[™] 6000 Series Automated Locker Solutions

Powered by Apex Connect n' Go[™] Technology

Axcess 6000 Series

Give your teams exactly what they need, when they need it, where they need it

Secure Access

Control access based on job roles, departments, work orders and more

Versatile Configurations

Choose from 4 locker heights and a variety of compartment sizes to create your ideal solution

Enhanced Product Visibility

Clear doors and bright interior lighting encourage quick, accurate item selection

Accessible Design

Internal controller can be lowered to meet accessibility guidelines and includes a Braille display

Supports a Wide Range of User ID

Choose an internal or stand-alone controller with options for barcode, magnetic stripe, proximity card or keypad entry

Keep Assets Charged

Compartments can be wired to recharge devices so they're always ready to work

- **Secure check-out and check-in**

High-cost scanners, radios, tools and diagnostic equipment can be checked out, their usage recorded, and checked back in. You will always know when an item has been checked out, and when it was returned.

- **Automate alerts for service and loan periods**

Set service and loan periods for various users and devices, and receive notifications when items are overdue.

- **Protect calibrated tools and instruments**

Automate maintenance, service and calibration notifications to ensure tools are always working at peak performance. Maintain time-stamped documentation of service and calibration records for quality certification programs.

Configure the Ideal Solution for Every Need
